

Quote Template

A one-page quote with a filled trades example, extras form and quote log.

What's inside

- A filled example quote p.2
- Blank one-page quotes (two copies) p.3
- Extra work and variations form p.5
- Quote log p.6

How to use it

1. Look at the example. Every line of the job is written down.
2. Fill the blank quote: labour and materials on separate lines.
3. Say what's included and what isn't. That stops arguments on site.
4. Log every quote you send and chase the ones that go quiet after a week.

Print it or type into it

Print at 100% on A4, or type into it and save as a new PDF to email. Add VAT only if you're VAT-registered. Not legal or tax advice.
