

AI Tips Pack

32 paste-ready prompts for work, admin, study and home.

What's inside

• Safe and smart: five rules	p.2
• Work prompts	p.3
• Admin prompts	p.4
• Study prompts	p.5
• Home and life prompts	p.6
• My best prompts	p.7

How to use it

1. Pick a prompt. Copy it into ChatGPT, Claude, Gemini or Copilot.
2. Swap the [square brackets] for your details.
3. Read the answer critically. AI can be confidently wrong.
4. Save the ones that work on the last page.

Print it or type into it

Print at 100% on A4, or copy prompts straight from the PDF. Works with ChatGPT, Claude, Gemini or Copilot. Not legal, tax or financial advice: you check and send every draft.

Rule	Why
Give it context	Who it's for, what tone, how long. Better input, better output
Never share secrets	No passwords, card numbers or other people's private details
Check facts	It can make up dates, laws and numbers. Check anything important
Edit before sending	Make it sound like you
Ask for a better one	'Shorter', 'friendlier', 'in a table' all work
