

Reset Routine

This is the full system, not a copy of the free 90-minute magnet. Separate sheets: daily 10-minute, weekly Sunday, monthly, seasonal, room-by-room 20-minute, digital, back-from-holiday, after-illness, a reset kit list, and a done-for-today line so the reset cannot expand into a five-hour purge.

How to use it

1. Pick the sheet that matches the mess in front of you. Do not run every sheet in one evening.
2. Set a timer for the minutes on the page. When it rings, write Done for today and stop.
3. The free Sunday Reset magnet is the 90-minute fence. This file is the rest of the year.

Daily 10-minute reset

Ten minutes. Surfaces you will see tomorrow morning. Not a deep clean.

- ☐ Sink empty / tap wiped
- ☐ One surface (table or desk)
- ☐ Tomorrow's first task written
- ☐ Charge the thing you will actually need
- ☐ Keys / bag in the same home

Notes

Done for today. Stop. Unfinished is the next reset, not tonight.
