A. How to use

1. Fill Section G once. Paste it at the top of every chat.
2. Copy one prompt from B–F. Replace [SQUARE BRACKETS] with real facts only.
3. Always tell the model: Never invent day rates, project fees, dates, names, or legal claims. If a fact is missing, ask one clarifying question.
4. Edit before you send — you are the freelancer; the model is a clerk.
5. Model-agnostic (ChatGPT, Claude, Gemini, local).

Tone presets: plain · warm · firm · short.
