

Life Admin Checklist

Admin lives in a low-grade worry list: MOT, dentist, insurance, that form you have not opened. This file is the boring list in one place. Fill the due / last-done boxes. Do not invent a fifth app.

How to use it

- 1. Do the audit once. It is ugly. Then it is useful.
- 2. Put eight items on the 2-hour Saturday shortlist, not forty.
- 3. Update when something actually gets done.

2-hour Saturday admin shortlist (eight tasks, not forty)

Two hours. Named tasks. Stop at eight.

#	Named task	Minutes	Done?
1	Open and sort the post		
2	Pay or file anything due this week		
3	Book the overdue appointment (dentist / MOT / boiler)		
4	Check MOT, insurance and TV licence dates		
5	Empty the downloads folder (ten-minute digital)		
6	Chase the waiting-on-other-people log		
7	Write next week's top 3 on the weekly planner		
8	Clear the admin table / kitchen admin pile		

Annual UK dates (pre-filled row labels)

Due and last-done are blank for you. The job names are already written.

Item	Due (DD/MM/YYYY)	Last done	Who / notes
MOT			
Insurance			
Boiler service			
Dentist			
Optician			
Tax year end			
TV licence

Waiting-on chase			

Section: Work

Item	Due	Last done	Notes
P60 / P45 file			
Workplace login backup			
CPD / training date			
Invoice chase			
Holiday remaining			

Waiting-on-other-people log

Two columns that matter: who you are waiting on, and since when. Worry is a feeling. Waiting-on is a sentence you can chase on Friday.

Who	What	Since (DD/MM)	Chase on	Done?

Document-location sheet

Pre-filled item labels. You write where the thing actually lives.

Item	Where it lives	Person who knows	Expires
Passport			
NI number			
Warranty
