UK B2B Lead List Sample Pack

Free · 25 real dog groomers & pet boarding businesses in South East England · TCH Works

A TCH lead list is a clean spreadsheet of real UK businesses in the trade and area you choose. Each row carries the business name, town, postcode, website, public phone, a generic business email where one is published (info@, hello@, bookings@, contact@), where that email was found, the public source record, and the date we checked it.

This free pack is a real 25-row sample we built on **20 October 2026** for dog groomers and pet boarding across Essex, London, Hertfordshire, Kent and Suffolk. The companion CSV file downloads with every column filled in. Nothing here is invented.

Honest GDPR / PECR notes

• **Business contacts only.** We list the business, not private individuals. Named-person emails and personal mobiles are left out; where we saw one, the Note column says so.

• **Public sources only.** OpenStreetMap (© OpenStreetMap contributors, Open Database Licence), each business's own website, and (on paid lists) Companies House matching. No buying third-party databases, no scraping behind a login, no social-profile harvesting.

• **Legitimate interest for B2B.** Under UK PECR you can usually send marketing emails to limited companies and LLPs at their published business addresses if you identify yourself and give an easy opt-out. Sole traders and partnerships are treated more like individuals — you normally need consent. Paid lists mark Companies House matches to help you tell the difference. Check numbers against the Telephone Preference Service before cold-calling. This is general information, not legal advice — see the ICO's direct-marketing guidance.

• **What we will not do.** Lists of private individuals, personal mobiles or home addresses, anything for spam, scams or debt chasing.

What's inside

Pages 2–3: all 25 sample rows (key columns). Full CSV has every field.

Page 4: column glossary and how this list was built.

Page 5: free sample vs a paid list, and how to order.

Written with code and AI assistance; every row checked against its public source before shipping.

Source credit: business listings © OpenStreetMap contributors, Open Database Licence (openstreetmap.org/copyright); emails confirmed on each business's own website where marked.

Two rows note that a named or personal email was seen and left out (The Uptown Dog; Jazz Up Your Paws). That is deliberate — we do not ship personal contact details.

Column glossary

What each field means on a TCH lead list

Business. Trading name as published on the public listing or the business's own site.

Town / Postcode. Town and postcode where published. Blank if the public record had none.

Website. Homepage URL when we found one. Checked live on the build date.

Business_email. Generic inbox only (info@, hello@, bookings@, contact@, admin@, appointments@, tlc@). Named-person emails are omitted.

Email_source. Where that email was confirmed: the business's own website, or OpenStreetMap's public tags.

Public_phone. Published business phone. Personal mobiles are not scraped in; some numbers may still be a mobile the business chose to publish.

Note. Anything we need you to know — e.g. a personal email was seen and left out.

Region. Area bucket used for this sample (Essex, or London / Herts / Kent / Suffolk).

Source_record. Direct link to the OpenStreetMap node or way we started from.

Checked. Date we verified the row. This sample: 20 Oct 2026.

How this sample was built

1. Queried OpenStreetMap (Overpass) for dog-grooming and pet-boarding tags across Essex and the wider South East.

2. For each listing, opened the published website (where one existed) and looked for a generic business email on contact / about / booking pages.

3. Kept the public phone from the listing when present. Left out named-person emails and noted that choice.

4. Wrote every field into a CSV with the source URL and the check date. Credited OpenStreetMap under ODbL.

Paid lists add Companies House Ltd/LLP matching, de-duplication against a list you already have, and a wider trade/area brief typed at Stripe checkout.

Free sample vs a paid list

What you get now, and what you get when you order

	This free sample	Paid list (£30 / £75)
Rows	25 (fixed trade + area)	100 (£30) or 300 (£75)
Trade + area	Dog groomers / pet boarding, SE England	You choose at Stripe checkout
Columns	All standard columns (see glossary)	Same + Companies House match where found
Format	PDF overview + full CSV	CSV or Excel by email
De-dupe your list	—	Yes on the £75 tier
Split by trade/area	—	Yes on the £75 tier (tabs)
Turnaround	Instant download	3 working days (100) / 4 (300)
Wrong-row fix	—	We replace any row that's wrong
Personal emails / mobiles	Left out	Left out

Want a list for your trade and area?

100 businesses · £30. One trade, one area (county, city or postcode area). Name, address, postcode, website, public phone, generic business email where published, Companies House number where we can match it. CSV or Excel in 3 working days.

`https://buy.stripe.com/aFa4gy0u2gXz2VGeat2881m?client_reference_id=svc-lead-list-100`

300 businesses · £75. Up to three trades or areas, de-duplicated against a list you already have, split into tabs. CSV or Excel in 4 working days.

`https://buy.stripe.com/6oUbJ01y65eRfIs9Ud2881n?client_reference_id=svc-lead-list-300`

Service page (with this sample): https://www.tchworks.co.uk/services/lead-lists/?src=leadlist-sample

Questions or a bigger / monthly list: email tchworks.shop@agentmail.to with subject "Lead list quote".

Licence: free to use this sample to judge quality before you buy. Please don't resell the PDF or CSV. Business listings © OpenStreetMap contributors (ODbL).

If the area you want has fewer businesses than ordered, we tell you before finishing and either widen the area or refund the difference.
